

Français Snap

Name that card

2 - 4 players (or teams)
1 translator / referee with translation sheet.
1 packs of Français Snap

How to play

Word cards are dealt to the players.

The picture cards are then placed face up on the table.

Players (or teams) take a card from their hand and place it face down on the table. This is the card that the other players have to try to identify.

Players (or teams) take it in turns to ask a question in French about the card (e.g. "is it a vegetable?", "is it red?"). Each question can only be answered "Oui" (yes) or "non" (no).

Questions are asked in a clockwise direction.

Once the answers are given, all players are able to guess the card by picking up its match from the table.

The first person to pick up the correct card wins that card.

Winning

The person or team with the most picture cards at the end is the winner.
